

# EUROPEAN CITIZENS AND CONSUMERS: SEIZING THE OPPORTUNITY OF THE ENERGY TRANSITION

21 June 2019, 09h - 13h  
Espace Grenelle - Enedis  
127 ter Bd de Grenelle, Paris 15<sup>e</sup>

Do we use less electricity if we pay it immediately ? Do women hinder the development of solar PVs ? Understanding how citizens make energy-related choices is key to develop efficient policy measures that trigger more sustainable energy practices and thus contribute to the energy transition. Funded by Horizon 2020, the ENABLE.EU project brings research findings to energy stakeholders in order to discuss the best tools and ways forward to improve citizens' involvement in the energy transition.
